- **Matriculate- S.K.D. Academy** Lucknow, India  
*CBSE; Percentage: 75 %* *May 2019*

## SKILLS SUMMARY

---

- **Languages:** C++, C, Python, HTML, CSS, JavaScript, SQL
- **Technical Skills:** OOPS, DBMS, Operating System, Computer Networks
- **Tools:** VS Code, MySQL
- **Platforms:** Windows, Web
- **Soft Skills:** Leadership, Event Management, Writing, Public Speaking, Time Management, Adaptability

## EXPERIENCE

---

- **Frontend Development Intern : LynzArch** Remote  
*Frontend developer* *May 2022*
  - **Projects:** Designed and developed a user-friendly school website as a front-end developer, ensuring simple navigation and accessibility. Implemented features like event calendars, student portals, and responsive design for optimal performance on all devices.

## PROJECTS

---

- **Tic Tac Toe :** Developed a two-player Tic Tac Toe game where Player 1 starts, and players alternate turns. The first player to create a straight 3-block chain wins the game.
- **Snake Game :** Developed a classic Snake game where players control a snake to eat food, growing longer with each meal. The game ends if the snake collides with itself or the walls.
- **Personal Portfolio :** Designed and developed a personal portfolio website to showcase skills and projects. Created a clean, responsive design, ensuring a seamless user experience. Implemented interactive elements and intuitive navigation to highlight achievements and work samples.
